

Entrix NX: Simple but powerful

NDIS Budget Buster & Aged Care Best Seller

Entrix NX is the perfect example of affordable quality, it provides all the essential features needed for optimal therapy and much more.

It is Carilex's **most affordable** pressure care solution, and most suitable for hospital, homecare and nursing home environments.

Entrix NX is the one pump solution to providing tailored therapy for every patient. It's compatibility with **6 different support surfaces** maximises patient pressure care options whilst minimising staff errors.

Finally, a range that allows customers to **mix & match** pumps and mattresses to achieve optimal therapy.
