

CENTRIUS = NO GUESS WORK REQUIRED

The ONLY alternating mattress range which allows you to SAFELY mix & match pump and support surfaces.

A key feature of the Centrius range is the ability to **MINIMISE RISK** to both the patient and the organisation. The Centrius system has been designed to be **EASY TO USE** whilst providing patients with optimal pressure care.

The Centrius does the thinking for you, with exclusive features including:

- Auto-set function
- Auto-upright function
- Auto-adjust function

Sophisticated & Simple

The Centrius Range is compatible with 8 Carilex support surfaces, in single and king single sizing
